11. Number of Possible Playfair Keys

#include <stdio.h> #include <math.h>

int main() { double keys, power;

```
keys = tgamma(26);        /* 25! */
power = log2(keys);

printf("Possible Playfair keys = 25!\n");
printf("25! = %.0f\n", keys);
printf("Approximately = 2^%.0f\n", power);

return 0;

}
```
